

Payment of Fees and Sliding Fee Schedule

Advantage serves all clients who are eligible for treatment and does not deny service due to inability to pay. Clients who do not have insurance will be asked to pay fees based on the DBHDD sliding fee schedule below. Clients with private insurance, Medicaid, or Medicare will be asked to pay co-pays and deductibles at the time of service.

Advantage utilizes the DBHDD fee schedule to assess self-pay fees for its services.¹ The cost of service can be variable based on the length of time of the appointment and the type of provider who you are seeing. You will be provided with an estimate of your fee and/or any associated co-pays prior to your appointment. If you are unable to pay the assessed fee, please speak with our front desk staff about establishing a payment arrangement.

DBHDD Policy: Payment by Individuals for Community Behavioral Health Services

Behavioral Health Sliding Fee Scale for Community-Based Services

Individuals whose adjusted income is at or below the poverty level for their family size in accordance with Health and Human Services Poverty Guidelines are determined not to have an ability to pay for services and therefore are not required to pay a fee.
